User Group Settings in phpFox

All user group settings that have been used in phpFox since version 4.4.0 are summarized below:

module	var_name	Description
ad	**show_ads**	Should ads be shown to members of this user group?
	can_create_ad_campaigns	Can create ad campaigns?
admincp	**can_clear_site_cache**	Can clear the sites cache. By allowing a user to clear the sites cache they will be able to remove either SQL data or HTML templates. Note that once the page is refreshed these items will be re-cached, however it might be best to only allow Admins or developers to have access to this feature.
	can_add_new_block	Can add/modify blocks being added from the AdminCP?
	can_view_product_options	Can view product drop downs in the AdminCP? Within certain sections of the AdminCP there are areas where an entry into the database requires a product ID#. If you disable this feature users will not be able to view the products name and will automatically enter the default product ID#. Only enable this feature when creating a plug-in or 3rd party module.
	can_manage_modules	Can manage product modules? Note: This includes updating the status, editing or deleting modules.
	can_add_new_modules	Can add new product modules?
	has_admin_access	**Has general access to the Admin Control Panel. Best to allow on Admins and Staff for security.**
announcement	**can_close_announcement**	Are members of this user group allowed to close the announcements block in the dashboard?
	can_view_announcements	Can browse and view announcements?
attachment	**points_attachment**	Points received when adding a new attachment for an item.
	can_attach_on_blog	Can attach items on blogs?
	attachment_limit	Specify the attachment limit. This will control how many attachments a user can upload and attach on other items. If you do not want to allow users the ability to upload items set this to **0**. If you do not want to set a limit set this to **null**.
	delete_own_attachment	Can delete their own attachments?
	delete_user_attachment	Can delete attachments added by other users?
	item_max_upload_size	Max file size for items upload in kilobits (kb). (1000 kb = 1 mb) For unlimited add "0" without quotes.
blog	**view_blogs**	Can view blogs.
	edit_own_blog	Can edit their own blogs?
	edit_user_blog	Can edit blogs added by other users?
	delete_own_blog	Can delete their own blog?
	delete_user_blog	Can delete blogs added by other users?
	add_new_blog	Can add a new blog?
	points_blog	Specify how many points the user will receive when adding a new blog.
	can_post_comment_on_blog	Can post comments on blogs?

	can_approve_blogs	Can approve blogs?
	approve_blogs	Approve blogs before they are publicly displayed?
	flood_control_blog	How many minutes should a user wait before they can submit another blog? Note: Setting it to "0" (without quotes) is default and users will not have to wait.
captcha	**captcha_on_blog_add**	Enable CAPTCHA challenge when adding a new blog.
	captcha_on_comment	Enable CAPTHCA challenge when a user adds a comment?
comment	**edit_own_comment**	Can edit their own comments?
	edit_user_comment	Can edit comments added by other users?
	delete_own_comment	Can delete their own comments?
	delete_user_comment	Can delete comments added by other users?
	points_comment	Specify how many points the user will receive when adding a new comment.
	can_post_comments	Can post comments?
	comment_post_flood_control	Define how many minutes this user group should wait before they can post a new comment. Note: Set to 0 if there should be no limit.
	can_moderate_comments	Can moderate comments?
	can_delete_comments_posted_on_own_profile	Can this user group delete comments posted on their own profile?
	can_comment_on_own_profile	Can comment on own profile?
	approve_all_comments	Approve comments before they are displayed publicly?
	can_delete_comment_on_own_item	Can delete any comments posted on their own item?
core	**can_view_update_info**	Can view "Update" information on items? Note: This information usually displays the user name of the last person that modified an item and the time it took place.
	can_view_private_items	Can view private items posted on the site. Such items are created by a member and are marked as private so only that member can view the item and members that have this option enabled.
	can_add_new_setting	Can add new product settings. Enable this feature only if development is in progress and changes are being made to the product.
	can_view_site_offline	Can view the site even when its set to offline?
	user_is_banned	Group banned from logging into the site and interacting with other members. **Note:** This option is intended only for "Banned" usergroup.
	is_spam_free	Set to **True** if this user group should never be checked for spamming.
	can_gift_points	Can members of this user group gift activity points?
custom	**can_edit_own_custom_field**	Can edit own custom fields?
	can_edit_other_custom_fields	Can edit other custom fields?
	can_manage_custom_fields	Can manage custom fields?

		can_add_custom_fields	Can add new custom fields?
		can_add_custom_fields_group	Can add a group for custom fields?
		has_special_custom_fields	Can have special custom fields?
		can_have_relationship	Can members of this user group define their relationship status?
	event	can_edit_own_event	Can edit own event?
		can_edit_other_event	Can edit events added by other users?
		can_delete_own_event	Can delete own event?
		can_delete_other_event	Can delete events created by other users?
		max_upload_size_event	Max file size for event photos in kilobits (kb). (1000 kb = 1 mb) For unlimited add "0" without quotes.
		can_view_pirvate_events	Can view private events?
		can_approve_events	Can approve events?
		can_feature_events	Can feature events?
		event_must_be_approved	Events must be approved first before they are displayed publicly?
		total_mass_emails_per_hour	Define how long this user group must wait until they are allowed to send out another mass email.
		can_mass_mail_own_members	Can mass email own event guests?
		can_access_event	Can browse and view the event module?
		can_create_event	Can create an event?
		can_sponsor_event	Can members of this user group sponsor their events?
		can_purchase_sponsor	Can members of this user group purchase a sponsored ad space?
		event_sponsor_price	How much is the sponsor space worth for events? This works in a CPM basis.
		auto_publish_sponsored_item	After the user has purchased a sponsored space, should the event be published right away? If set to false, the admin will have to approve each new purchased sponsored event space before it is shown in the site.
		flood_control_events	How many minutes should a user wait before they can create another event? Note: Setting it to "0" (without quotes) is default and users will not have to wait.
		points_event	How many points does the user get when they add a new event?
	feed	can_post_comment_on_feed	Can post a comment on a feed?
		can_delete_own_feed	Can delete own feed?
		can_delete_other_feeds	**Can delete other feeds?**
		feed_sponsor_price	**How much does it cost to sponsor a feed post? This works in a CPM basis**
		can_sponsor_feed	**Can members of this user group define a feed as sponsored without paying?**
		auto_publish_sponsored_item	**Should sponsored items be published right away?**

	can_purchase_spo nsor	**Can members of this user group sponsor feeds?**	
forum	**can_stick_thread**	Can stick a forum thread?	
	can_close_a_thread	Can close a thread?	
	can_post_announc ement	Can post an announcement?	
	can_delete_own_p ost	Can delete their own post?	
	can_delete_other_p osts	Can delete other posts?	
	can_add_new_forum	Can add a new public forum?	
	can_edit_forum	Can edit a public forum?	
	can_manage_forum _moderators	Can manage forum moderators? **Notice:** Includes adding, editing and deleting forum moderators.	
	can_delete_forum	Can delete a public forum?	
	can_edit_own_post	Can edit own forum post?	
	can_edit_other_pos ts	Can edit other forum posts?	
	can_move_forum_t hread	Can move forum threads?	
	can_copy_forum_t hread	Can copy forum threads?	
	can_merge_forum_ threads	Can merge forum threads?	
	can_reply_to_own_ thread	Can reply to own thread?	
	can_reply_on_othe r_threads	Can reply on threads posted by other users?	
	can_add_new_thre ad	Can post a new thread?	
	can_add_forum_att achments	Can add attachments to posts?	
	can_add_tags_on_t hreads	Can add tags to threads?	
	enable_captcha_on _posting	Enable Captcha protection when posting within the forums?	
	forum_thread_flood _control	Define how many minutes this user group should wait before they can post a new thread. **Note:** Set to **0** if there should be no limit.	
	forum_post_flood_ control	Define how many minutes this user group should wait before they can post a new reply to a thread. Note: Set to 0 if there should be no limit.	
	points_forum	Points received when adding a thread/post within the forum.	
	can_view_forum	Can browse and view the forum module?	
	can_sponsor_thread	Can members of this user group mark a thread as sponsored?	
	can_purchase_spo nsor	Can members of this user group purchase a sponsored ad space?	
	forum_thread_spon sor_price	How much is the sponsor space worth for forum threads? This works in a CPM basis.	
	auto_publish_spon sored_thread	After the user has purchased a sponsored space, should the thread be published right away? If set to false, the admin will have to approve each new purchased sponsored thread before it is shown in the site.	

	approve_forum_thread	Approve threads before they are displayed publicly?	
	can_approve_forum_thread	Can approve forum threads?	
	approve_forum_post	Approve forum posts before they are displayed publicly?	
	can_approve_forum_post	Can approve forum posts?	
	can_thank_on_forum_posts	Can give "thanks" on forum posts?	
	can_delete_thanks_by_other_users	Can delete "thanks" added by other users?	
	can_manage_forum_permissions	Can manage forum permissions?	
	can_add_poll_to_forum_thread	Can attach polls to forum threads?	
friend	**can_add_friends**	Can add friends?	
	can_add_folders	Can add custom folders?	
	total_folders	Allowed Total Friend Folders (Enter without quotes "0" for no limit.)	
	link_to_remove_friend_on_profile	When enabled, members of this user group will see a link to "Remove Friend" from the profile page of their friends.	
invite	**points_invite**	How many points the invitee and the inviter will receive upon a successfully request.	
language	**can_manage_lang_packs**	Can manage language packages?	
mail	**total_folders**	Total amount folders a user can add to their mail box. To add an unlimited number add "0" (without quotes).	
	can_compose_message	Can compose messages to another users?	
	can_add_folders	Can add custom folders?	
	show_core_mail_folders_item_count	When enabled shows how many messages are in the inbox, sentbox and deletebox of every profile. Note that this adds extra queries to your database.	
	can_add_attachment_on_mail	Can add attachments?	
	mail_box_limit	This setting tells how many messages can be stored based on the user group. It is complemented by the setting override_mail_box_limit to allow administrators and staff members to store any number of messages. This setting does not work with threaded mail.	
	override_mail_box_limit	This setting tells if members of this user group can overcome the limit imposed by the setting mail_box_limit. By default only administrators and staff members can have unlimited messages stored.	
	restrict_message_to_friends	This setting tells if the user can only send messages to people in his/her friends list.	
	can_message_self	This setting controls if members of this user group can send messages to themselves.	
	override_restrict_message_to_friends	Members allowed to override the "restrict_message_to_friends" will be able to receive messages regardless if they are friends of the sender or not.	
	mail_box_warning	When users are about to use all their allowed mail space a warning will be shown. This setting tells what percentage of their mail capacity must be used before showing this warning. Set it to zero to never show a warning.	
	can_read_private_messages	Can members of this user group read private messages in your site?	
	can_delete_others_messages	Can members of this user group delete other people's messages?	
	enable_captcha_on_mail	Enable Captcha when composing messages.	

	send_message_to_max_users_each_time	This value restricts sending private messages. It sets the maximum number of recipients when sending private messages, avoiding users to select way too many users and potentially spamming. Set to 0 for unlimited.
marketplace	**can_post_comment_on_listing**	Can post a comment on marketplace listing?
	can_edit_own_listing	Can edit own marketplace listing?
	can_edit_other_listing	Can edit marketplace listings added by other users?
	can_delete_own_listing	Can delete own marketplace listing?
	can_delete_other_listings	Can delete marketplace listings added by other users?
	max_upload_size_listing	Max file size for photos upload in kilobits (kb). (1000 kb = 1 mb) For unlimited add "0" without quotes.
	can_feature_listings	Can feature listings?
	listing_approve	Enable if listings should be approved first before they are displayed publicly
	can_approve_listings	Can approve marketplace listings?
	can_access_marketplace	Can browse and view listings?
	can_create_listing	Can create a listing?
	can_sponsor_marketplace	Can sponsor a marketplace listing?
	can_purchase_sponsor	Can members of this user group purchase a sponsored ad space?
	marketplace_sponsor_price	How much is the sponsor space worth for marketplace listings? This works in a CPM basis.
	auto_publish_sponsored_item	After the user has purchased a sponsored space, should the listing be published right away? If set to false, the admin will have to approve each new purchased sponsored listing space before it is shown in the site.
	can_sell_items_on_marketplace	Can sell items on the marketplace?
	flood_control_marketplace	How many minutes should a user wait before they can create another marketplace listing? Note: Setting it to "0" (without quotes) is default and users will not have to wait.
	points_marketplace	How many activity points should the user get when adding a new listing?
	total_photo_upload_limit	Control how many photos a user can upload to a marketplace listing each time.
	can_view_expired	Can members of this user group view the section "Expired" in the marketplace?
music	**can_upload_music_public**	Can upload music? **Notice:** This will allow this user group the right to upload songs to the public music section.
	can_add_comment_on_music_album	Can add comments on music albums?
	can_add_comment_on_music_song	Can add a comment on a song?
	can_edit_other_music_albums	Can edit albums created by other users?
	can_edit_own_albums	Can edit own albums?
	can_delete_own_track	Can delete own track?

	can_delete_other_t racks	Can delete tracks added by other users?
	can_delete_own_m usic_album	Can delete own music album?
	can_delete_other_ music_albums	Can delete albums added by other users?
	music_max_file_size	Maximum file size of songs uploaded.
	can_feature_songs	Can feature songs?
	can_approve_songs	Can approve songs?
	music_song_appro val	Songs must be approved first?
	can_feature_music _albums	Can feature music albums?
	can_access_music	Can browse and view the music module?
	can_sponsor_song	Can members of this user group mark a song as Sponsor?
	can_sponsor_album	Can members of this user group mark an album as sponsor?
	can_purchase_spo nsor_album	Can members of this user group purchase a sponsored ad space for their music albums?
	can_purchase_spo nsor_song	Can members of this user group purchase a sponsored ad space for their songs?
	music_album_spon sor_price	How much is the sponsor space worth for music albums? This works in a CPM basis.
	music_song_spons or_price	How much is the sponsor space worth for music songs? This works in a CPM basis.
	auto_publish_spon sored_album	After the user has purchased a sponsored space, should the music album be published right away? If set to false, the admin will have to approve each new purchased sponsored album space before it is shown in the site.
	auto_publish_spon sored_song	After the user has purchased a sponsored space, should the song be published right away? If set to false, the admin will have to approve each new purchased sponsored song space before it is shown in the site.
	can_edit_own_song	Can edit own songs?
	can_edit_other_song	Can edit songs uploaded by other users?
	points_music_song	How many activity points should a user receive for uploading a song?
newsletter	**show_privacy**	If enabled, members of this user group will be able to toggle a privacy setting to stop receiving newsletters.
page	**can_manage_custo m_pages**	Can manage custom pages from within the AdminCP? This includes adding/editing/deleting pages.
pages	**max_upload_size_p ages**	Max file size for event photos in kilobits (kb). (1000 kb = 1 mb) For unlimited add "0" without quotes.
	can_moderate_pag es	Can moderate pages? This will allow a user to edit/delete/approve pages added by other users.
	approve_pages	Approve a new page before it is displayed publicly?
	points_pages	Activity points received when creating a new page.
	can_add_new_pages	Can create new pages?
	can_view_browse_ pages	Can browse and view pages?
	can_claim_page	Can members of this user group contact the site to claim a page?
	can_add_cover_ph oto_pages	Can add a cover photo on pages?

photo	can_create_photo_album	Can create a new photo album?
	max_number_of_albums	Define the total number of photo albums a user within this user group can create. **Notice:** If you set this value to **null** it will allow them to create an unlimited amount of photo albums. Setting this value to **0** will not allow them the ability to create photo albums.
	points_photo	Points received when uploading a new image.
	can_upload_photos	Can upload photos?
	can_use_privacy_settings	Can use privacy settings when creating an album?
	max_images_per_upload	Define the maximum number of images a user can upload each time they use the upload form. **Notice:** This setting does not control how many images a user can upload in total, just how many they can upload each time they use the upload form to upload new images.
	can_add_tags_on_photos	Can add tags on photos?
	can_add_mature_images	Can add mature images with warnings?
	can_search_for_photos	Can search for photos?
	total_photos_displays	Define how many images a user can view at once when browsing the public photo section?
	refresh_featured_photo	Define how many minutes or seconds the script should wait until it refreshes the feature photo. **Notice:** To add X minutes here are some examples: [code] 1 min 2 min 30 min [/code] If you would like to define it in seconds here are some examples: [code] 20 sec 30 sec 90 sec [/code]
	can_download_user_photos	Can download a users photo?
	can_edit_own_photo_album	Can edit own photo album?
	can_edit_other_photo_albums	Can edit photo albums that belong to other users?
	can_delete_own_photo	Can delete own photo?
	can_delete_other_photos	Can delete photos uploaded by other users?
	can_edit_own_photo	Can edit own photo?
	can_edit_other_photo	Can edit photos added by other users?
	photo_mature_age_limit	For a photo that is marked as "Mature (Strict)" define the age limit? **Note:**The age you define will allow users with that age or older the ability to view mature photos.
	can_edit_photo_categories	Can edit public photo categories?
	can_add_public_categories	Can add public photo categories?
	photo_must_be_approved	Set this to **True** if photos uploaded must be approved before they are visible to the public.
	can_approve_photos	Can approve photos that require moderation?

		can_feature_photo	Can feature a photo?
		can_delete_own_photo_album	Can delete own photo album?
		can_delete_other_photo_albums	Can delete photo albums created by other users?
		can_tag_own_photo	Can tag own photo?
		can_tag_other_photos	Can tag photos added by other users?
		how_many_tags_on_own_photo	How many times can a user tag their own photo?
		how_many_tags_on_other_photo	How many times can this user tag photos added by other users?
		photo_max_upload_size	Max file size for photos upload in kilobits (kb). (1000 kb = 1 mb) For unlimited add "0" without quotes.
		can_view_photos	Can browse and view the photo module?
		can_post_on_photos	Can post comments on photos?
		can_sponsor_photo	Can members of this user group explicitly set a photo as Sponsor?
		can_purchase_sponsor	Can members of this user group purchase a sponsored ad space?
		photo_sponsor_price	How much is the sponsor space worth? This works in a CPM basis.
		auto_publish_sponsored_item	After the user has purchased a sponsored space, should the item be published right away? If set to false, the admin will have to approve each new purchased sponsored photo space before it is shown in the site.
		can_view_photo_albums	Can view photo albums?
		flood_control_photos	How many minutes should a user wait before they can upload another batch of photos? Note: Setting it to "0" (without quotes) is default and users will not have to wait.
		total_photo_display_profile	Define how many photos to display within an album on a users profile.
		maximum_image_width_keeps_in_server	Maximum image width keeps in server (in pixel). If image width user upload higher than this value will crop to this value.
	poke	can_poke	Can members of this user group poke other members?
		can_only_poke_friends	Can members of this user group send a poke only to people in their friends list? (If you disable it, members of this user group will be able to poke people also not in their friends list)
	poll	poll_can_upload_image	This setting defines if members of this usergroup can add images along with their polls.
		view_poll_results_before_vote	Can members of this user group view poll results before voting on a poll? Note that this setting may be overridden by the "poll.can_view_user_poll_results_own_poll" and the "poll.can_view_user_poll_results_other_poll" settings. It can also be complemented with the setting "poll.view_poll_results_after_vote"
		poll_can_change_own_vote	Tells if a user group member can change its vote on a poll. If set to false the first vote will be the definitive vote for that user and that poll. If set to true users will be able to change their vote in the future.
		poll_flood_control	How often can members of this user group post new polls (in minutes). 0 => no restriction 1 => 1 minute 10 => 10 minutes
		poll_requires_admin_moderation	This setting tells if polls posted by members of this group will need to be moderated (approved) before being shown on the site

	poll_can_moderate _polls	Can members of this user group moderate polls? (delete, approve)
	poll_require_captc ha_challenge	Do members of this user group need to complete a captcha challenge to submit a poll?
	poll_can_edit_own _polls	Can members of this user group edit their own polls after submitted?
	poll_can_edit_other s_polls	Can members of this user group edit other member's polls?
	poll_can_delete_ow n_polls	can members of this user group delete their own polls?
	poll_can_delete_ot hers_polls	Can members of this user group delete polls posted by other members?
	can_post_comment _on_poll	Can members of this user group post comments on polls?
	view_poll_results_a fter_vote	When set to yes members of this user group will see the poll results right after voting.
	maximum_answers _count	How many answers can members of this user group add to their polls?
	can_vote_in_own_ poll	Do you want to enable members of this user group to vote on their own polls? This is different than changing their votes.
	points_poll	how many points does adding a poll award?
	can_view_user_poll _results_own_poll	Can view what users have voted on their own poll?
	can_view_user_poll _results_other_poll	Can view users poll results on other polls?
	can_edit_title	Can members of this user group edit the title, image, random setting, privacy setting and comment setting on a poll? This may be overridden by the setting poll_can_edit_others_polls and the poll_can_edit_own_polls. If this setting is disabled, users will not be able to change the colors in the poll.
	can_edit_question	Can members of this user group edit the question and answers of a poll? This may be overridden by the setting poll_can_edit_others_polls and the poll_can_edit_own_polls
	highlight_answer_v oted_by_viewer	If set to yes the answer chosen by the viewer will be highlighted with a background color. This is useful if you have it set so the members of this usegroup cant view the results after taking the poll as they still will be able to view their own answer.
	can_access_polls	Can browse and view polls?
	can_create_poll	Can create a poll?
	can_view_hidden_p oll_votes	Can view votes even if the poll is marked to hide votes? (Admin Option)
privacy	**can_view_all_items**	Can view all items regardless of privacy settings?
	can_comment_on_ all_items	Can comment on all items regardless of privacy settings?
profile	**can_post_comment _on_profile**	Can post comments on a users profile?
	display_membershi p_info	Display membership details on a users profile?
	can_view_users_pr ofile	Can view a users profile? (Including their own profile.)
	can_change_cover _photo	Can change profile cover photo?
quiz	**max_questions**	How many questions can a new Quiz (created by a member of this user group) have.
	min_questions	How many questions is the least a Quiz (created by members of this user group) can have.
	max_answers	How many answers maximum can each question in a quiz have

		min_answers	How many answers (minimum) can a question in a quiz have?
		can_answer_own_quiz	Can users answer their own quizzes?
		can_approve_quizzes	Are members of this group able to approve quizzes
		can_delete_others_quizzes	Can members of this user group delete other people's quizzes
		new_quizzes_need_moderation	Do quizzes from user group need to be moderated before being shown?
		can_delete_own_quiz	Allow users from this user group to delete their own quizzes?
		can_post_comment_on_quiz	Can members of this user group post comments on quizzes?
		can_edit_own_questions	This setting tells if members of this user group can edit questions and answers in their own quizzes.
		can_edit_others_questions	This setting tells if users of this user group can edit the questions and answers in quizzes made by other users.
		can_edit_own_title	This setting tells if members of this user group can edit the title, description and privacy settings in quizzes they posted.
		can_edit_others_title	This setting tells if members of this user group can edit the title, description and privacy settings in quizzes posted by other members.
		points_quiz	How many points to award per new quiz.
		can_view_results_before_answering	If this option is enabled members of this user group will be able to view what other users answered in a quiz before they answer the quiz themselves.
		can_upload_picture	Can members of this user group upload a picture along with the quiz?
		is_picture_upload_required	Is it a requirement to upload a picture with the quiz? Be careful as this setting along with the "quiz.can_upload_picture" could keep members from uploading any quiz (having is_picture_upload_required enabled but can_upload_picture disabled would render a useless add quiz page because of the mutual exclusion)
		can_access_quiz	Can browse and view the quiz module?
		can_create_quiz	Can create a quiz?
		flood_control_quiz	How many minutes should a user wait before they can create another quiz? Note: Setting it to "0" (without quotes) is default and users will not have to wait.
	report	**can_report_comments**	Can report on comments?
	search	**can_use_global_search**	Can use the global search tool?
	tag	**can_add_tags_on_blogs**	Can add tags on blogs?
	theme	**can_view_theme_sample**	Can view block layout for themes within the Admin Control Panel?
	user	**can_add_user_group_setting**	Can add/edit settings for user groups? Note: Enable this feature only if creating a plug-in or modifying the package.
		can_control_profile_privacy	Can control privacy settings on their own profile?
		can_control_notification_privacy	Can control notification privacy settings?
		can_override_user_privacy	Can override a users privacy setting?
		require_profile_image	Users are required to upload a profile image?

can_edit_gender_setting	Can edit their gender?	
custom_name_field	Custom full name field	
can_edit_dob	Can edit date of birth?	
can_edit_users	Can edit a users account? **Notice:** Requires the ability to log into the AdminCP.	
can_stay_logged_in	Can stay logged into the site?	
can_change_other_user_picture	Can change profile photos added by other users?
