

# Pages - Changelog

Version 4.7.15

## Information

- **Release Date:** February 16, 2022
- **Best Compatibility:** phpFox >= 4.8.4

## Bugs fixed

- Global Search: User can still search Page although the setting "Can browse and view pages?" is disabled
- Admin Page cannot view detail of the song although he has permission
- Integrated with Chat plus site - User profile>>Pages - Online status dot is cut off
- The warning message of menu is not correct
- User can edit Page in "login as Page" state although they do not have permission
- Profile photo of Page is broken in "login as Page" popup
- The numbered/ bulleted list feature is not working on Widget block
- The menu list is still shown although those are disabled by Page owner
- The success message is not shown on Firefox browser after admin approves Page
- Manage Categories: Missing breadcrumb after editing the category
- My Pages: After owner updated Page with no categories then it is not shown on My Pages
- Remove link from a feed that post on Page - Show meaningless notification for the poster
- User profile > Liked Pages blocks - The tool-tip is not correct when others view your profile
- Online status dot of ChatPlus is cut
- Page: "Claim Page" function does not work when the "Messages" app is disabled
- Invite Pending Page: Other users can view pending pages by inviting friends

## Improvements

- User Profile: Hide block "Liked Pages" when the setting "Can browse and view pages?" is disabled
- Hide option "Login as Page" when setting "Can browse and view pages?" is disabled
- Manage Page: Invite: Support for Page owner is able to search friends by phone numbers to invite joining Page if the setting "Enable Registration using Phone Number" is enabled
- Support integrate notification and email when creating items in Page
- Add a setting that allows Page owner is able to turn on/off email notifications when someone posts in Page
- When a member of Page tries to post a status then other members should also receive the notification and email of that post
- Not use the alert message of browser when owner creates the widget/menu with empty data
- Manage Page: Add message after owner drags and drops the widget/menu
- Support checking integration permission for integrated apps
- Not allow non-login user (guest) to delete Page without logging in even if the setting "Can delete all pages?" is enabled in the user group "Guest"
- Members Tab: Change text in the confirmation popup when using Mass actions
- Remove related Page Claim requests automatically if the user is assigned as the owner Page
- Hide all feeds of Page when setting "Can browse and view pages?" is disabled
- Add New Page: Should hide "Add Page" button if all categories in the site are disabled
- AdminCP - Manage Categories: Should have the success message after admin drags and drops to change the order of category
- Allow page owner to invite people via phone number to join Page
