

# Groups - Changelog

Version 4.7.15

## Information

- **Release Date:** June 14, 2023
- **Best Compatibility:** phpFox >= 4.8.8

## Bugs fixed

- Group owner does not receive notification when user joins in group
- Group owner does not receive notification when member posts items in group
- Other minor issues

## Improvements

- Related Groups: display groups which a user has joined or can view detail of them
- When a user accepts an invitation to join the closed group, then they will immediately become a member of that group without waiting for approval
- Support upload attachments for Menus/Widgets
- Support Restful API on Groups

Version 4.7.14

## Information

- **Release Date:** February 14, 2022
- **Best Compatibility:** phpFox >= 4.8.7

## Bugs fixed

- Global Search: User can still search the group although the setting "Can browse groups?" is disabled
- Join Group: User cannot join Secret Group after he has been invited by the owner
- The warning message of the menu is not correct
- Wrong grammar of the error message at "Groups Limit Per Category"
- Users cannot send the request to join closed groups
- User can create a new group although the setting "Can browse groups?" is disabled
- Detail Group: Delete option does not work
- My Groups: After the owner updated Group with no categories then it is not shown on My Groups
- The online status dot of ChatPlus is cut
- After removing a link from a feed that posted on Group, site shows meaningless notification for the poster
- User profile > Joined Groups blocks - The tool-tip is not correct when others view your profile
- In Detail Group > Group Admin Tab, after the group owner leaves the group and views the group admins list, the "permission denied" message is shown
- AdminCP - Update Counter feature is not working right in certain cases
- Invite Pending Group: Other users can view pending group by inviting friends
- In Detail Group > Member tab, GIF user avatar is cut off
- AdminCP - Show the wrong header when the admin deletes the category

- Detail Group: Reassign owner function works incorrectly
- Detail Group: After un-joining "Secret Group", the group owner cannot view detail of this group
- Detail Group: Loading icon is always shown on "Reassign Owner" popup, so group owner cannot reassign the owner
- Public Group is not shown on All Groups page when non-login user views
- User profile: Count function of Group works incorrectly
- When a user requests to join Closed group, send duplicate notifications to the group owner
- After sharing public and closed group to Feed, got issue when click on Join button on the feed item
- XSS Attack: Group: The popup of the script is displayed when viewing the detail group
- XSS Attack: Popup of the script is shown when the group owner creates a menu with XSS scripts

## Improvements

- Manage Group: Admins: Allow Group owner to able to search all members in Group to assign the admin level even if they are not a friend
- Add a setting that allows group owner is able to turn on/off email notifications when someone posts in group.
- When a member of Group tries to post a status then other members also receive the notification and email of that post
- AdminCP Setting: Should validate the setting "Max file size for upload files in kilobytes (kb)"
- When clicking on notification of requesting to join group, it should redirect owner to Pending Request tab
- Hide all feeds which are created in group or info in "Statistic" widget if the setting "Can browse groups?" is disabled
- Manage Categories: Improvement for "Delete Confirmation" popup
- AdminCP - Add New Category: Insert \* (require) to Name field
- AdminCP - Manage categories/sub-categories: Have the success message after admin drags and drops to change the order of category/sub-category
- Manage Group: Add message after owner drags and drops the widget/menu
- Join Closed Group: After the group owner rejoins the group then they should automatically become a member of that group
- Support integrated apps to check the group permission
- Add New Group: Hide "Add Group" button if all categories in the site are disabled
- Do not allow non-login users (guest) to delete group without logging in even if the setting "Can delete all groups?" is enabled in the user group "Guest"
- Group Detail: Invite: Allow Group owner to invite people via phone number to join Group
- Detail Group: Member Tab: Hide "Pending Requests" tab for Group type are Public and Secret
- Manage Group: Show a message successfully after group owner deletes the menu/widget
- Detail Group: Pending Request: Have the message successfully after group owner approves/denies the request to join Group
- Detail Group: Change text when a user requests to join a secret group
- Detail Group: Reassign Owner: Change text
- Create Groups: Reorder buttons
- Pending Groups: Reorder actions in MassAction
- Detail Group: Don't allow to view Blog/Quiz/Video/ ... by copying and pasting link if those items have not integrated into Group
- Detail Groups: Members Tab: Add text when there is no member joined to group
- Pending Groups: Should display the notice popup instead of the warning text after site admin deletes a non-existing group
- Manage Group: Change text when group owner deletes the widget/menu
- Mass Action: Change text when group owner tries to delete the member of group
- Validate the settings of "The maximum number of groups that members can create"
- Menus Tab: Focus on "Menus" tab after creating a new menu in Group
- Keep the GIF animation when uploading avatar from group detail with GIF
- Manage > Permissions - Add "Can view widgets?" permission
- Invite > Email - Auto tag when clicking out of the box or click on 'Send Invitation' button
- XSS Attack: Group: Prevent the HTML tags in content from either being executed as JS script or rendered as HTML content
- When disabling the "Show Photo Title" setting in Photos app, remove photo title when viewing group's avatar and cover
- Change text of the confirm popup when deleting a group

## Version 4.6.0

### Information

- **Release Date:** January 9th, 2018
- **Best Compatibility:** phpFox >= 4.6.0

### Improvements

- Support groups admin can re order widgets.
- Support upload thumbnail photo for main categories.
- Add statistic information of Groups (total items, pending items...) into Sit Statistics.
- Users can select actions of groups on listing page same as on detail page.
- Count items on menu My Groups.
- Support drag/drop, preview, progress bar when users upload thumbnail photos for groups.
- Hide all buttons/links if users don't have permission to do.
- Support 3 styles for pagination.
- Allow admin can change default photos.
- Validate all settings, user group settings, and block settings.
- Update new layout for all blocks and pages.

### Removed Settings

ID	Var name	Name	Reason
1	groups.pf_group_show_admins	Show Group Admins	Move to setting of block Admin

### New Settings

ID	Var name	Name	Description
1	groups.groups_limit_per_category	Groups Limit Per Category	Define the limit of how many groups per category can be displayed when viewing All Groups page.
2	groups.pagination_at_search_groups	Paging Style	
3	groups.display_groups_profile_photo_within_gallery	Display groups profile photo within gallery	Disable this feature if you do not want to display groups profile photos within the photo gallery.
5	groups.display_groups_cover_photo_within_gallery	Display groups cover photo within gallery	Disable this feature if you do not want to display groups cover photos within the photo gallery.
6	groups_meta_description	Groups Meta Description	Meta description added to groups related to the Groups app.
7	groups_meta_keywords	Groups Meta Keywords	Meta keywords that will be displayed on sections related to the Groups app.

### Removed User Group Settings

ID	Var name	Name	Reason
1	groups.pf_group_moderate	Can moderate groups? This will allow a user to edit/delete/approve groups added by other users.	Don't use anymore, split to 3 new user group settings "Can edit all groups?", "Can delete all groups?", "Can approve groups?"

### New User Group Settings

ID	Var name	Information
1	groups.can_edit_all_groups	Can edit all groups?
2	groups.can_delete_all_groups	Can delete all groups?

3	groups. can_approve_groups	Can approve groups?
4	groups.flood_control	Define how many minutes this user group should wait before they can add new group. Note: Setting it to "0" (without quotes) is default and users will not have to wait.
