Version 4.6.0

Information

- **Release Date:** January 9th, 2018
- **Best Compatibility:** phpFox >= 4.6.0

Improvements

- Support groups admin can re order widgets.
- Support upload thumbnail photo for main categories.
- Add statistic information of Groups (total items, pending items...) into Sit Statistics.
- Users can select actions of groups on listing page same as on detail page.
- Count items on menu My Groups.
- Support drag/drop, preview, progress bar when users upload thumbnail photos for groups.
- Hide all buttons/links if users don't have permission to do.
- Support 3 styles for pagination.
- Allow admin can change default photos.
- Validate all settings, user group settings, and block settings.
- Update new layout for all blocks and pages.

Removed Settings

ID	Var name	Name	Reason
1	groups.pf_group_show_admins	Show Group Admins	Move to setting of block Admin

New Settings

ID	Var name	Name	Description
1	groups.groups_limit_per_category	Groups Limit Per Category	Define the limit of how many groups per category can be displayed when viewing All Groups page.
2	groups.pagination_at_search_groups	Paging Style	
3	groups.display_groups_profile_photo_within_gallery	Display groups profile photo within gallery	Disable this feature if you do not want to display groups profile photos within the photo gallery.
5	groups.display_groups_cover_photo_within_gallery	Display groups cover photo within gallery	Disable this feature if you do not want to display groups cover photos within the photo gallery.
6	groups_meta_description	Groups Meta Description	Meta description added to groups related to the Groups app.
7	groups_meta_keywords	Groups Meta Keywords	Meta keywords that will be displayed on sections related to the Groups app.

Removed User Group Settings

ID	Var name	Name	Reason
1	groups.pf_group_moderate	Can moderate groups? This will allow a user to edit/delete/approve groups added by other users.	Don't use anymore, split to 3 new user group settings "Can edit all groups?", "Can delete all groups?", "Can approve groups?"

New User Group Settings

ID	Var name	Information
1	groups.can_edit_all_groups	Can edit all groups?
2	groups.can_delete_all_groups	Can delete all groups?
3	groups.can_approve_groups	Can approve groups?
4	groups.flood_control	Define how many minutes this user group should wait before they can add new group. Note: Setting it to "0" (without quotes) is default and users will not have to wait.
