

Finding your License ID and Key

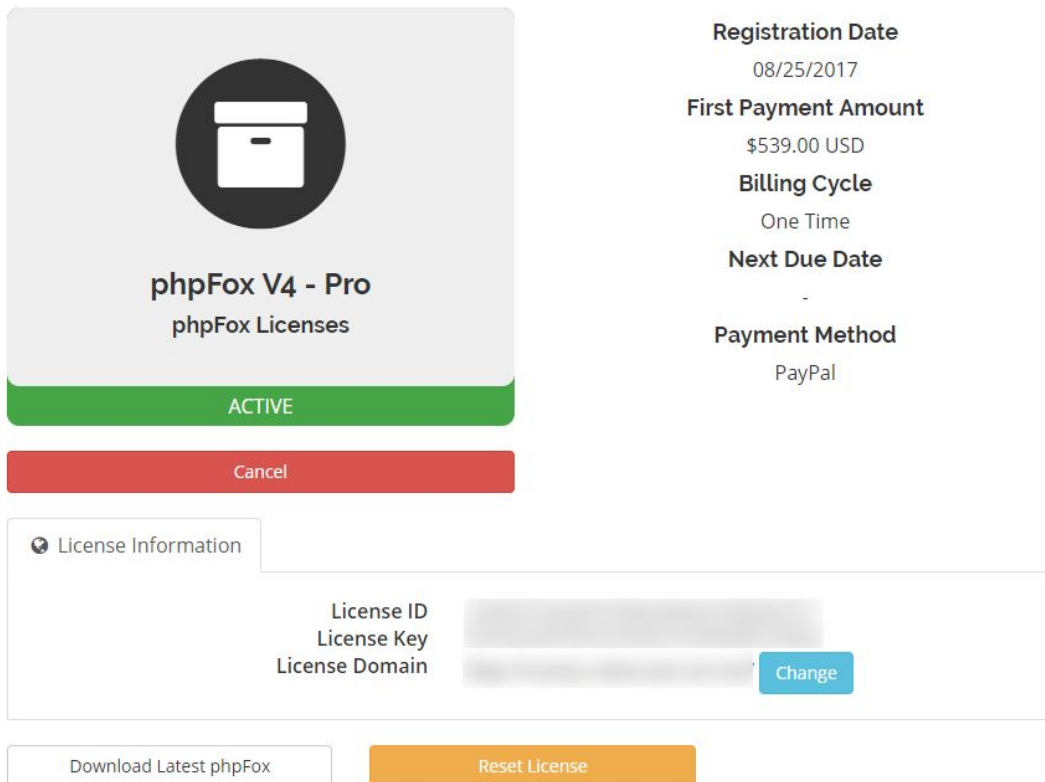

Archives

You are using phpFox version earlier than 4.6.0? Please refer instruction for this article [here](#).

When upgrading your site, or posting reviews at our store, you will be asked to enter your site's License ID and Key. This information is emailed to you when you first purchased a license. If you have lost this information, you can retrieve it from [here](#). Just click your license in the "Your Active Services /Products" block:

You will then be brought to the page that shows your license ID, Key, domain name and download link:

How to reset license key

If you would like to change license key as well as license domain, you can click on "Reset License" button on this page. A new license key will be generated and associated domain will be removed right then.

Access license key from web server

If you are running Neutron (v4 or higher), you can access your site's license information by opening the file `/PF.Base/file/settings/license.sett.php`.

In that file, you will find something like:

```
define('PHPFOX_LICENSE_ID', 'c5daa43d32eabb6da3e3ad6966ffa87d');  
define('PHPFOX_LICENSE_KEY', 'f353c6edf0293240a372d7876f27832f');
```

The 32 character jumble of letters and numbers is your license ID and Key.
