

# Enabling and Managing the Groups App

## Archives

You are using phpFox version earlier than 4.6.0? Please refer instruction for this article [here](#).

- [Enabling or Disabling Groups App](#)
- [Group Settings](#)
- [Managing Categories](#)
- [User Group Settings](#)
- [Converting Old v4.0 - v4.3.x Groups \(Optional\)](#)

## Requirements:

- **V4.4.0+**
- **Cron job set up** (if converting old Groups from prior v4 versions and for Group notifications)

## Enabling or Disabling Groups App

- Click Apps >> Installed then select Groups

## Group Settings

1. Groups Limit Per Category: Define the limit of how many groups per category can be displayed when viewing All Groups page.
2. Paging Type: Click the drop-down menu and select an option between Scrolling down to load more items, Use the Next and Pre buttons, and Use pagination with the Page number.
3. Display groups profile photo within gallery: Disable this feature if you do not want to display groups profile photos within the photo gallery.
4. Display groups cover photo within gallery: Disable this feature if you do not want to display groups cover photos within the photo gallery.
5. Groups Meta Description
6. Groups Meta Description

7. Click SAVE CHANGES when done.

Settings | User Group Settings | Add New Category | Manage Categories | Manage Integrated Items | Convert old groups

Groups Limit Per Category  
1   
Define the limit of how many groups per category can be displayed when viewing All Groups page.

Paging Type  
2

3 Display groups profile photo within gallery  
Disable this feature if you do not want to display groups profile photos within the photo gallery.  NO

## Managing Categories

When in the Groups App shown above, choose Categories and you can manage your categories here.

Settings | User Group Settings | Add New Category | Manage Categories | Manage Integrated Items | Convert old groups

Manage Categories				
Name	Sub-Categories	Image	active	
Business	3		<input checked="" type="checkbox"/>	
Food	0		<input checked="" type="checkbox"/>	
Photography	0		<input checked="" type="checkbox"/>	
Sports	0		<input checked="" type="checkbox"/>	

- Adding Categories
  - Click Add New Category tab

Settings | User Group Settings | Add New Category | Manage Categories | Manage Integrated Items | Convert old groups

Add new category

Parent category

Name in English (US)

Name in other languages

Image  
 No file chosen

Upload image for category

- Choose a parent category if this is a subcategory or leave that as it is. Add a name for your category and submit.

Settings   User Group Settings   **Add New Category**   Manage Categories   Manage Integrated Items   Convert old groups

---

Add new category

Parent category

Sports

Name in English (US)

Name in other languages

Submit

- **Removing Categories**

- Go to Manage Categories. Click setting icon to the left of the category and select Delete

Settings   User Group Settings   Add New Category   **Manage Categories**   Manage Integrated Items   Convert old groups

---

Manage Categories

Name	Sub-Categories	Image	active
↕ ⚙ Business Edit Manage Sub-Categories (3) <b>Delete</b>	3		<input checked="" type="checkbox"/>
↕ Manage Sub-Categories (3) <b>Delete</b>	0		<input checked="" type="checkbox"/>
↕ ⚙ Photography	0		<input checked="" type="checkbox"/>
↕ ⚙ Sports	0		<input checked="" type="checkbox"/>

- **Editing Categories**

- In the Manage category tab, Click to the left of the category and select Edit and you can then edit the name and if a subcategory you can edit the parent category.

Settings   User Group Settings   Add New Category   **Manage Categories**   Manage Integrated Items   Convert old groups

---

Manage Categories

Name	Sub-Categories	Image	active
↕ ⚙ Business <b>Edit</b> Manage Sub-Categories (3) Delete	3		<input checked="" type="checkbox"/>
↕ Manage Sub-Categories (3) Delete	0		<input checked="" type="checkbox"/>
↕ ⚙ Photography	0		<input checked="" type="checkbox"/>

- **Sorting and Arranging Categories**

- To the far left of the category name, you will see up/down arrows. You would use those to drag and drop the category where you want it.

- Disabling or Enabling Categories**

- To the right of the categories, you will see a Green or Grey toggle button. Click that to enable and disable Categories.

Manage Categories				
Name	Sub-Categories	Image	active	
Business	3		<input checked="" type="checkbox"/>	
Food	0		<input checked="" type="checkbox"/>	
Photography	0		<input checked="" type="checkbox"/>	

## User Group Settings

As this is an App, it has its own User Group Settings. When in the Group app screen, choose User Group Settings and select the Group.

From the user group settings in the Group App, you can manage the following:

- Can browse groups? -> This setting allows or disallows that user group access to seeing the public Groups in the groups' app. Private Groups are always restricted to their allowed users for privacy.
- Can add a cover photo on groups? -> Allows or disallows users in this user group to add cover photos to their Group.
- Can edit all groups? -> Allows/disallows moderation permissions for this user group to approve/disapprove new Groups if you set the Approve New Groups to yes as well.
- Can delete all groups?
- Can approve groups?
- Can add groups? -> Allows or disallows this user group to add Groups.
- Max file size for upload files in kilobits (kb). For unlimited add "0" without quotes. -> Sets the file size for uploads in this User Group for the Groups they make.

- Approve a new group before it is displayed publicly? -> This sets whether Groups need to be approved before they go "live". If you set the Can Moderate Groups, then your any user groups set to be able to approve new Groups will be able to do so.
- Activity points received when creating a new group. -> Allows you to set a number of points each user group gets for making new Groups.
- Define how many minutes this user group should wait before they can add a new group. Note: Setting it to "0" (without quotes) is the default and users will not have to wait.

Can browse groups?  YES

Can add a cover photo on groups?  YES

Can add groups?  YES

Max file size for upload files in kilobits (kb). For unlimited add "0" without quotes.

Approve a new group before it is displayed publicly?  NO

Activity points received when creating a new group.

Can edit all groups?  NO

Can delete all groups?  NO

Can approve groups?  NO

Define how many minutes this user group should wait before they can add new page. Note: Set to 0 if there should be no limit.

## Converting Old v4.0 - v4.3.x Groups (Optional)

If you desire to import your current Groups from the Pages module into the new Groups App, as long as you are on one of the v4 versions already, please follow these steps. You will need to be comfortable with setting a Cron job if you have 500 or more groups.

- [Set up cron](#) if needed (recommended method even for small amounts of groups), if you hadn't already set it up.
- Now, while in the Group App screen (see the beginning of this tutorial for location), select Convert Old Groups

**Groups**

Settings

User Group Settings

Categories

**Convert old groups**

**Convert old groups (from pages) to new groups:**

[Via directly](#) [Via cron job](#)

Learn more about these more? [Visit here](#)

- Choose the method you are using, Directly or Cron Job.

You have 1 old groups (from pages).  
Do do want to convert to new groups system?:

Yes, convert directly

Yes, convert via cron job

Learn more about these ways? [Visit here](#)

- It will go through the process and notify you when done. You can leave the screen to do other things other than clearing your site cache. Don't clear cache yet.
