

Enabling and Managing Purchase with Points

Archives

You are using phpFox version earlier than 4.6.0? Please refer instruction for this article [here](#).

Perhaps you want to allow your users the option to purchase things from your site with their Activity Points. This tutorial deals with that feature.

First, you'll need to enable the **Purchasing with Activity Points** feature and set up user group settings as you want them.

Please note that once **Purchasing with Activity Points** is enabled, it is a site-wide setting and will allow users to purchase anything that is at a price on the site - ads, Marketplace items, subscriptions, etc.

This is the default product and not having to do with third-party products as those vendors would need to deal with Purchase with Points for their products. If looking to use this with third-party products, please contact those vendors.

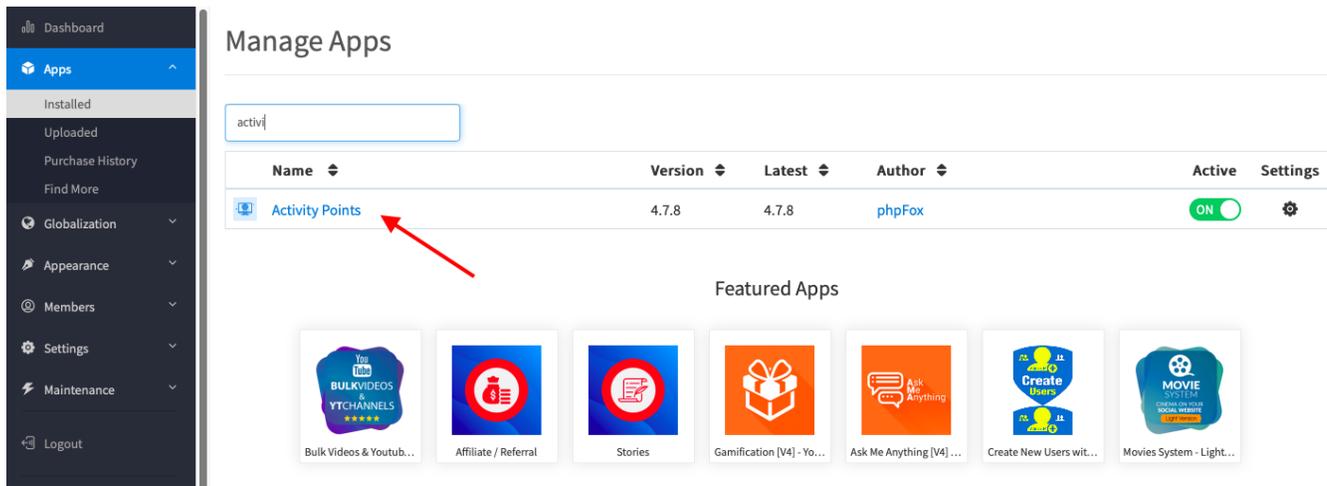

This tutorial has following sections:

- [Enabling Purchase with Points Setting](#)
- [Enabling and Managing User Group Settings for Purchasing with Points](#)
- [Setting Points for User Groups](#)
- [Purchase Activity points](#)

This assumes you are already logged in as the Admin user and are [logged into the Admin CP](#).

Enabling Purchase with Points Setting

From **Admin CP > Installed >** select **Activity point** app

The screenshot shows the 'Manage Apps' interface in the Admin CP. A search bar at the top contains the text 'activi'. Below it is a table of installed apps. The 'Activity Points' app is highlighted with a red arrow. The table has columns for Name, Version, Latest, Author, Active, and Settings. Below the table, there is a section for 'Featured Apps' with several app icons and their names.

Name	Version	Latest	Author	Active	Settings
 Activity Points	4.7.8	4.7.8	phpFox	<input checked="" type="checkbox"/>	

Featured Apps:

- Bulk Videos & Youtub...
- Affiliate / Referral
- Stories
- Gamification [V4] - Yo...
- Ask Me Anything [V4] ...
- Create New Users wit...
- Movies System - Light...

Scroll down to the settings for **Allow member to Purchase with Activity Points**

Enabling and Managing User Group Settings for Purchasing with Points

Each user group has its own settings for the Purchase with Points feature. You will need to check each user group and set it how you want it. Please see the [User Group Settings](#) tutorial for how to manage user groups. Once you select the user group you want to change, scroll down to see the list of settings where you can manage and set permission for a specific user groups. Click **Yes** to enable or **No** to disable.

Note that there are default values for how many points are purchased. This is hardcoded and if you want to change that, you will need a developer to customize it.

User Group Settings » Administrator (ID#1) Create User Group

Apps: Activity Points
Groups: Administrator

User Group Settings

- Allow to use Activity Points for exchanging items** YES
- Allow member to purchase Activity Points** YES
- Can members of this user group gift activity points?** YES
- Allow users of this group using the function "Send/Minus Activity Points" in AdminCP > Member Points** YES
- Maximum Activity Points that this user group will send to members in AdminCP > Member Points**: 1000

Save Changes

Allow to use Activity Points for exchanging items - Yes to allow users to purchase with points and No will disable this feature.

Allow member to Purchase Activity Points - This allows users to buy points from you. It requires you to have a payment gateway set up.

Can members of this user group gift activity points?- You might want your users to be able to gift points to their friends as well.

Setting Points for User Groups

You can set a number of points users will receive when doing things such as posting a blog, photo, etc. From the Activity Point App setting page> click on **Point Setting** tab.

We set the number to 1. That means for each blog/attachment uploaded, the user will get 1 points. You can edit the number of your choice by clicking on the number.

Point Settings

Settings | User Group Settings | **Points Setting** | Points Package | Transaction History | Member Points Add New Package

These settings are applied on each usergroup. So, please choose usergroup first

Choose Usergroup: Registered User

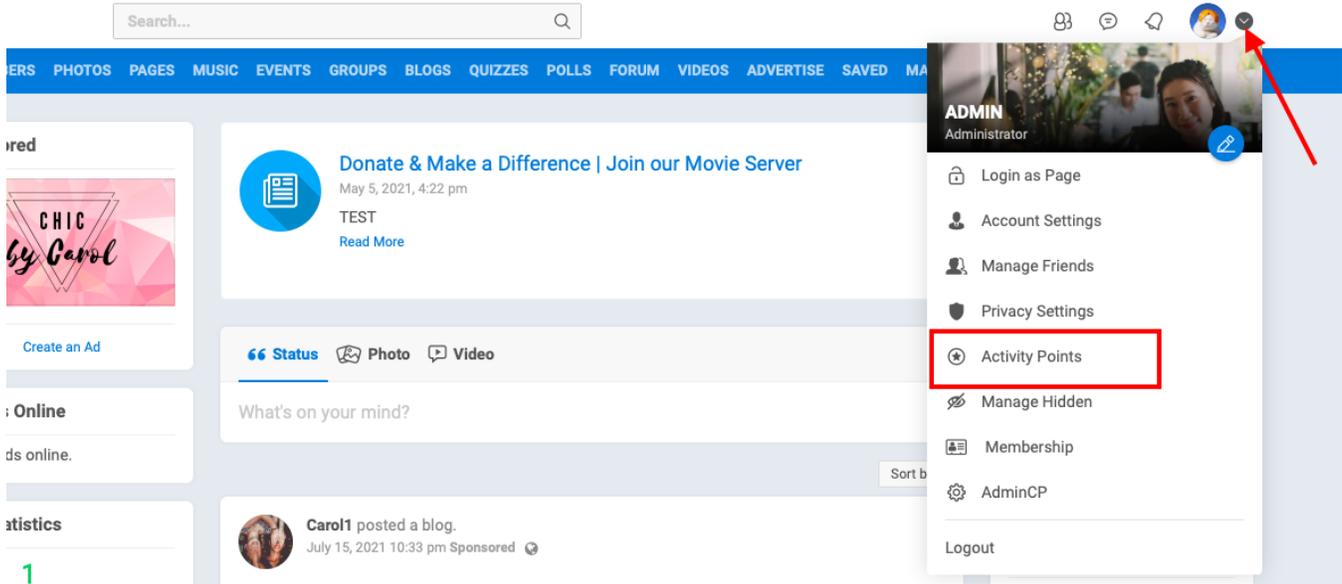

Action	Earned Points	Max Earned Points	Period (day)	Active
Attachment				<input checked="" type="checkbox"/>
Points received when adding a new attachment for an item.	1	0	0	<input checked="" type="checkbox"/>
Blogs				<input checked="" type="checkbox"/>
Specify how many points the user will receive when adding a new blog.	1	0	0	<input checked="" type="checkbox"/>
Comments				<input checked="" type="checkbox"/>
Specify how many points the user will receive when adding a new comment.	1	0	0	<input checked="" type="checkbox"/>
Events				<input checked="" type="checkbox"/>
How many points does the user get when they add a new event?	1	0	0	<input checked="" type="checkbox"/>

Purchase Activity points

After enabling the setting **Purchase Activity Points**, users can purchase activity points following these below steps:

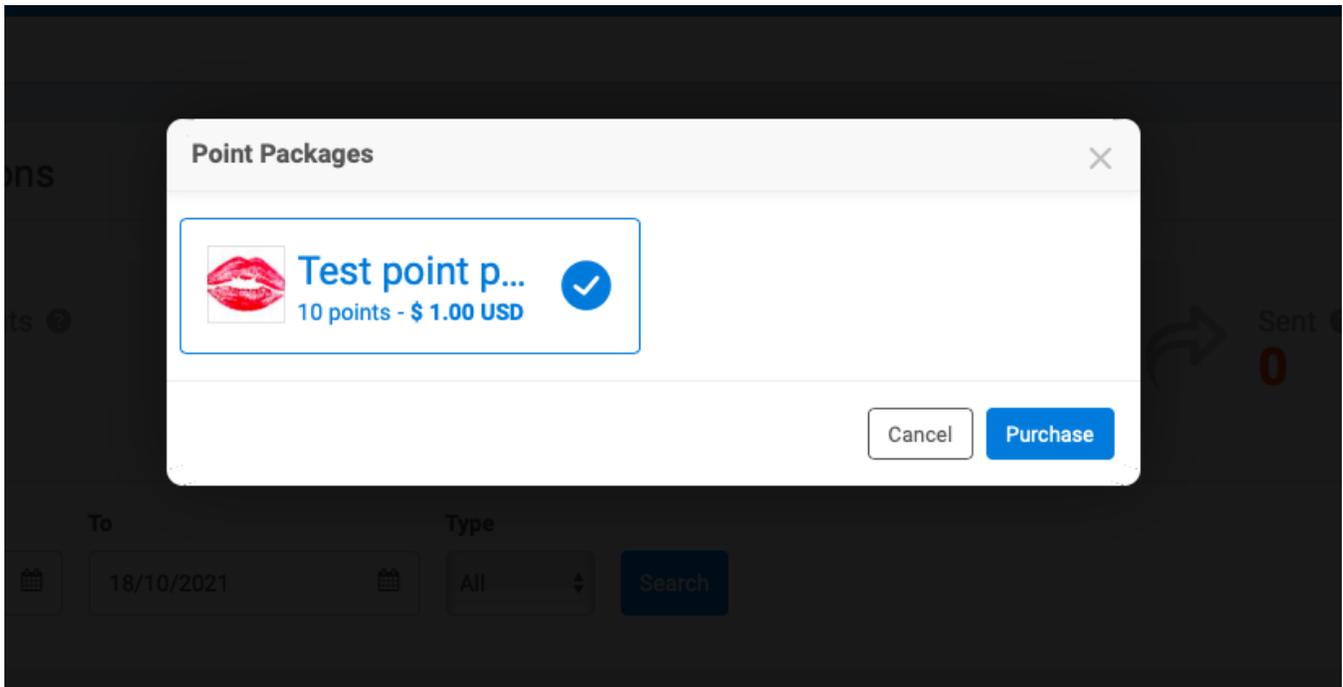

- Go to their user profile page.
- Click on the profile's drop-down menu, choose **Activity Points**.

- Click on **Purchase Packages** button on the right side of the page

- By clicking on the button it takes user to the Point Packages list where user can select package then make the purchase.

- After purchasing completely, **Activity Points** will be added to the account of the user.
