

Viewing Reported Items

Archives

You are using phpFox version earlier than 4.6.0? Please refer instruction for this article [here](#).

This tutorial will show you how to see the items your users have reported and how to manage report categories.

When you first log into Admin CP, there is a Site Statistics block on the Dashboard. At the bottom of the list of items will be the Reported Items. You can click the number to go to the Reported Items page.

Site Statistics

ONLINE

Another way to get to Reported Items is to choosing **Reported Items** from **Maintenance** menu.

The View Reports screen shows you the items reported, report category, how many reported it, date reported, who reported it, and feedback.

Admin View Site

Search settings...

View Reports Add New Category Manage Categories

<input type="checkbox"/>	Module	Category	Total	Date	Last Report	Feedback
<input checked="" type="checkbox"/>	User Status	abuse content	1	December 3, 2017	Harry	Too aggressive.

Process selected Ignore Selected

In the image above, you can see we selected one report by clicking to the checkbox on the left. Then we have the option to **Ignore the report** if we find it is something doesn't violate the rules. Or you can **Process** to decide to take some sort of actions (Manually by perhaps warning a user, removing the item, etc).

If you click the Total number, a popup will show you all of the users that reported the item and the dates.
