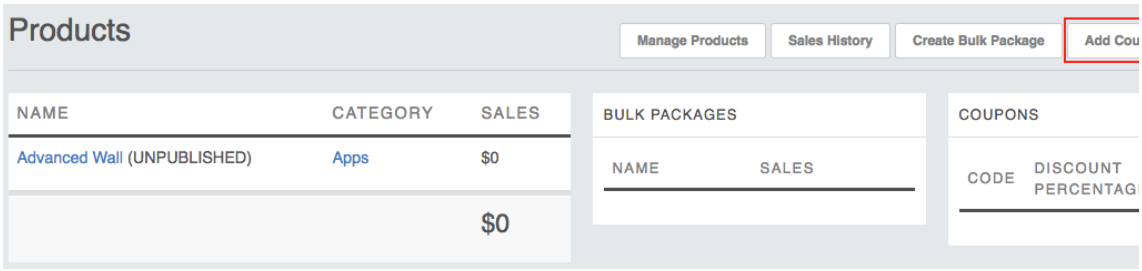
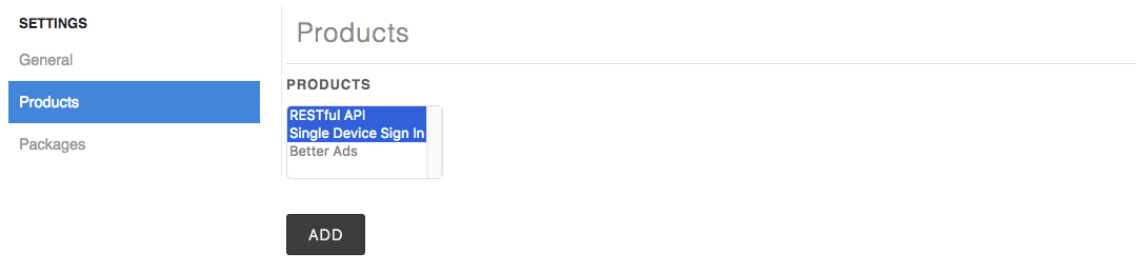
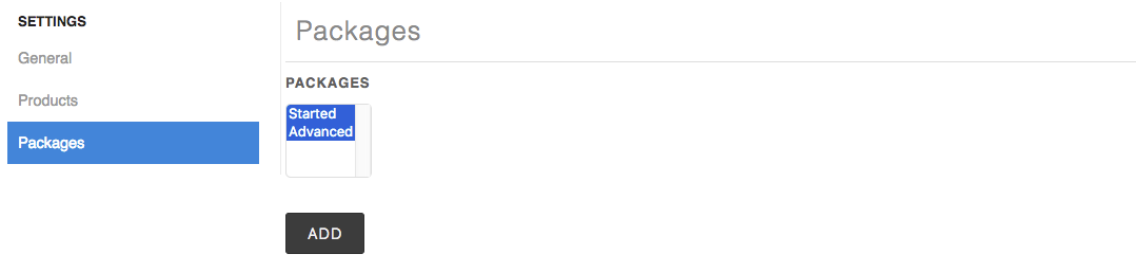
Add new Coupon

- Access your "Manage Products" page. You can see the button "Add Coupon Code" in the header. Click the button to go to the creating page.



- Enter information for the Coupon: the Code, Discount Percentage, Expired Date, select Products and Packages.

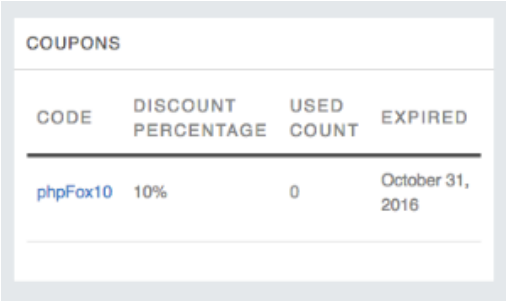


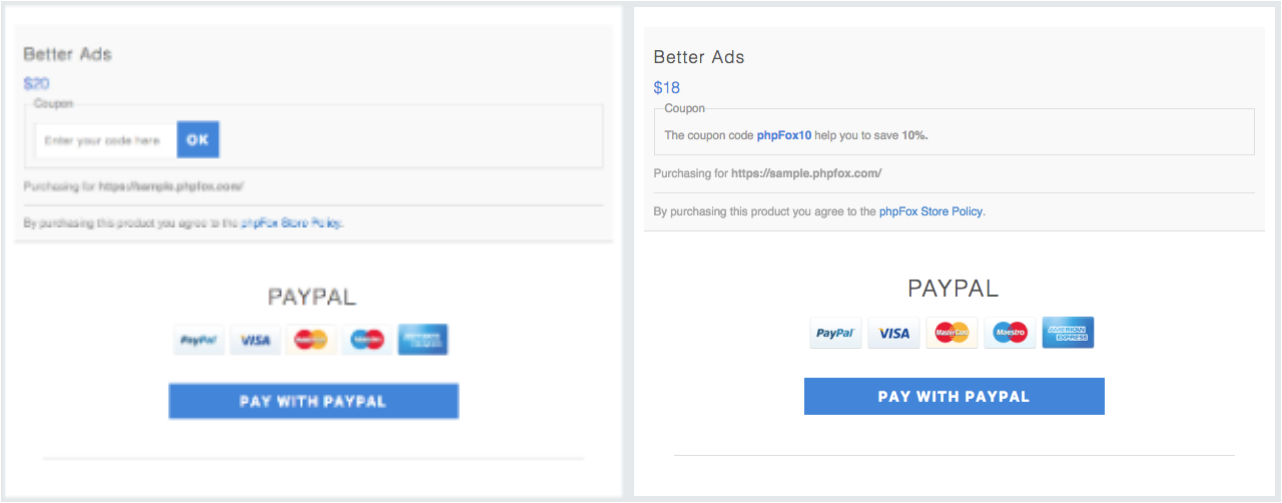


- Click "ADD" button and you have a new coupon for your products and packages.

Manage your Coupons

All your coupons will be listed in a block in your "Manage Products" page. You can view/edit/delete your coupons here.



Use the Coupons


The clients can use the the coupons when they purchase your products/packages in the store or in AdminCP.
