# Shoutbox

### Introduction

One of the simple definition of Shoutbox - A small chat box provides a chat-like feature that allows site members to quickly leave messages on your community. phpFox shoutbox, in simplest form, is lists of short messages, possibly with information about their authors.

## Main Feature

- Add **Shoutbox** block in Homepage, **Page Detail** page and **Group Detail** page. The blocks are located in block 3 at default but admin can move them to any blocks.
- Site Admin can enable/disable Shoutbox block.
- Site admin can control who can add a new message to Shoutbox.
- Site admin can control who can view Shoutbox block.
- Admin of Pages/Groups can control who can add a new message to Shoutbox on their Pages/Groups.
- Admin of Pages/Groups can control who can view Shoutbox block on their Pages/Groups.

# Settings

ld	Name	Description
