phpFox 4.5.2

User Group Settings

From version 4.5.2, below user group settings will be removed from the Core script:

Setting var name	Setting Title	App	Reason
feed. can_remove_feeds_fro m_dashboard	Can remove feeds from their dashboard?	feed	The setting isn't useful anymore
feed. can_remove_feeds_fro m_profile	Can remove feeds from their own profile?	feed	The setting isn't useful anymore
mail.mail_box_limit	This setting tells how many messages can be stored based on the user group. It is complemented by the setting override_mail_box_limit to allow administrators and staff members to store any number of messages.	mail	The setting isn't useful anymore
mail. override_mail_box_limit	This setting tells if members of this user group can overcome the limit imposed by the setting mail_box_limit.	mail	The setting isn't useful anymore
mail. override_restrict_mess age_to_friends	Members allowed to override the "restrict_message_to_friends" will be able to receive messages regardless if they are friends of the sender or not.	mail	The setting isn't useful anymore
