Features no longer support since 4.5.3

No	Feature	Description
01	ReCaptcha App	We have already supported "ReCaptcha" as a type of default Captcha app.

Deprecated features 4.5.3

No	Feature	Description	Will be remove in
01	Manage Plugins page in Admincp	After re-analyze this feature, we decided that plugins should be controlled by the developers only, so we will hide all of them from admin view.	4.7

Notice

No	Item	Description
01	Install / Upgrade	While installing / upgrading platform, phpFox allows admin to choose which apps from Store will be installed / upgraded along with the platform. However, because the newest version of Video and IM apps are so different to the previous ones, if admin wants to use these new apps, admin has to re-check all configurations as well as installation guide of them
