phpFox CDN

We are talking a social network having lots of user content. So CDN is always an important factor which makes your site fast. phpFox CDN provides a system of distributed servers (network) which photos, videos, and files can be hosted on the same HTTP server as your site, however, it's best to keep it separate.

Notice:

- This app is currently compatible with phpFox 4.5.2 or later
- If you install this app, it will replace the current CDN core app
