Photos

"Photos" is an essential section of all social network communities. We know that images have become more and more important and that is why we don't just provide you a simple core photo app but we have added many trending actions to make it more attractive. Your members can choose to upload photos to a public gallery or to their own set of photo albums. Your members can also select the privacy settings for the photo they upload and choose who can view their photos online.
