

Poke

Poke app allows members on the community to poke their friends to call their notice. Your users basically use poke to catch someone's attention without engaging into a conversation. When a user pokes his / her friend, this friend will get a notification

Notice:

- This app is applied for all phpFox packages. Refer to <https://www.phpfox.com/pricing> to see all packages.
- This app is currently compatible with phpFox 4.5.3 or later
- If you install this app, it will replace the current Poke core app

Compatibility

- phpFox 4.5.3 or higher

Product Information
