

How to Change/Add User Picture Profile

There are 2 ways for users to change/add their profile picture:

- Upload photo from their device.
- Use an existing photo.

Upload photo from device

Go to User Profile Page, hover on the Profile Picture, you will see the button to upload a new photo.

Use an existing photo

Requires:

- *phpFox 4.5+*

Go to any photo detail pages on the **phpFox** site, users can see the option to set this photo as a profile picture.
