

How to Send E-Gifts to Friends

There are two types of E-Gifts, birthday and year round. The birthday E-Gifts only show up on your friend's birthday. The year round E-Gifts show up all year if the website has those enabled.

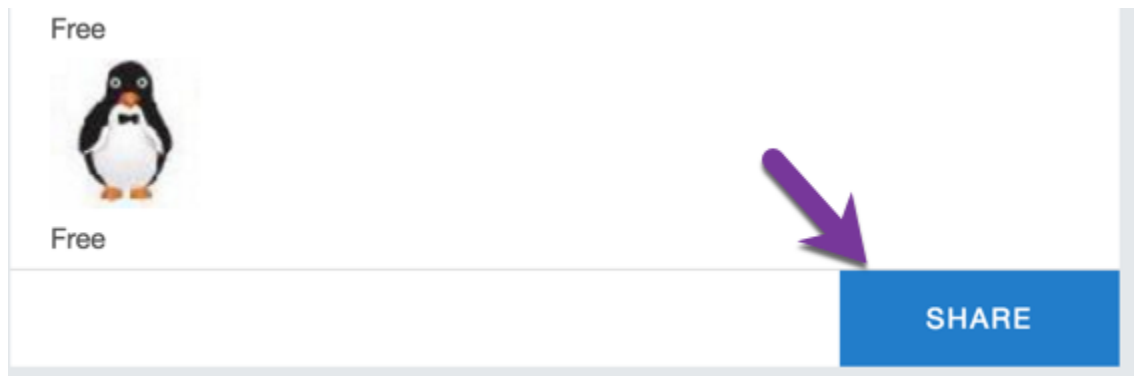

Where to find E-Gifts to send

- Go to a friend's profile.
- In the status box, you will see the E-Gifts depending on how the site has them set up. If a birthday, it will just show those. If year round gifts are set up, you will see category drop downs if more than one category exists.

The screenshot shows the top of a social media post creation interface. At the top are two tabs: "Post" and "Photo". Below the tabs is a text input field with the placeholder "Write something...". A red callout bubble with the text "Write a message here" points to this field. Below the text field is a category dropdown menu currently set to "Fun". A red callout bubble with the text "Choose a category" and a purple arrow points to the dropdown arrow. Below the category menu is the text "You can choose an e-gift to send with your message below." Below this text is a gift selection area. It features a jukebox emoji. A red callout bubble with the text "Choose a gift" and a purple arrow points to the emoji. Below the emoji is the word "Free".

- Once you put a message and choose a gift, click Share to post it to your friend's wall.

The screenshot shows the final state of the post on a friend's wall. The post content is visible, showing the word "Free" at the top, followed by a penguin emoji wearing a bow tie, and the word "Free" again below it. A large purple arrow points from the right towards a blue "SHARE" button located at the bottom right of the post area.

- This is how it looks after it's sent.
