

Forum

Any subject matter and open discussion are some of the most significant activities which keep users active and being engaged in the community. Forum app offers a solid platform for users to express their ideas and opinions on a certain topic and also acquire discussion from others. The forum is categorized into several sections, and users can create topics or contribute to the discussion by sharing comments on the topic. In addition, users can follow interesting topics using subscription feature or quickly find a certain topic using helpful filters, trending keywords or recent/featured topic blocks.
