- M views/controller/view.html.php

Version 4.7.17

Information

- **Release Date:** March 07, 2022

- **Best Compatibility:** phpFox >= 4.8.7

Bug fixed

- Global Search: User can still search photo/album although the setting "Can browse and view the photo module?" is disabled
- The content of notification is not correct when a member tries to post the photo in Page
- Group owner cannot edit their album cover photo
- User can create item (Photo/Album) inside Page although this module has not been integrated with Page
- "Flood control photos" setting works not correct with its description

Improvements

- Turn off "Can browse and view the photo module?"setting - Do not allow user upload photo, create album and view photo/album on feed
- Support Ajax delete without reload page
- Hide some user group settings for Guest
- Improvement for Core Global Search
