

Enabling Anti-Spam Questions

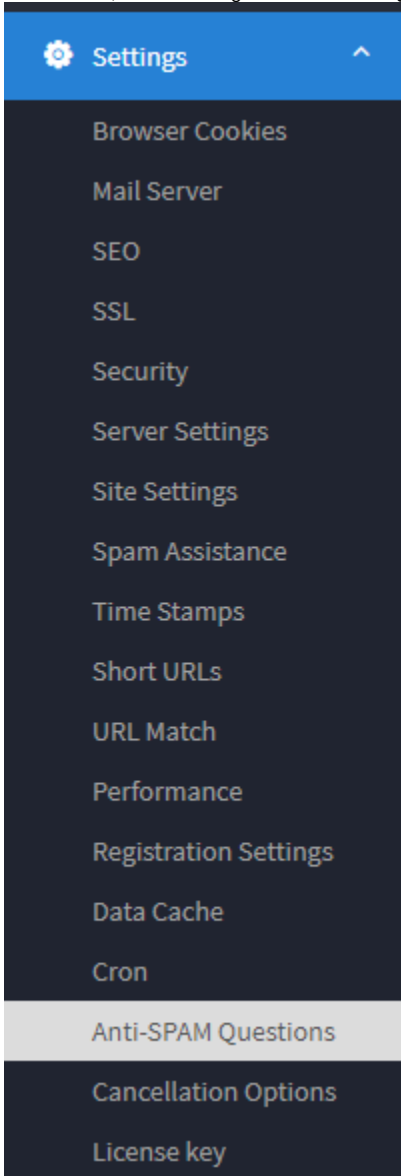

Archives

You are using phpFox version earlier than 4.6.0? Please refer instruction for this article [here](#).

Fighting spammers is one of the tougher jobs of a website owner or administrator. One tool we provide, and that you should use if not using reCaptcha, is the Anti-Spam Questions with Images. You can google around for tips on making some but many site owners use their niche for ideas for the questions. This tutorial will show you how to enable and add anti-spam questions.

- In AdminCP, select Settings >> Anti-SPAM Questions

- Click Add New Question

Anti-Spam Security Questions

Add New Question

There is no question.

- On the right, you'll see any questions you've already set up and to the right of that, you will see the input area to add more questions.
 1. If you want an image with this, click to upload one from your computer.
 2. Add your question here.

3. Add your answers. You might want to put a few variations of the answer such as with caps/without caps as some users might use caps and some might not. The "x" to the right of the answers is to delete that answer if needed.
4. Click the + to add more answers.
5. Click Add Question when done.
6. The "x" to the right of the answers is to delete that answer if needed.

The 'Add New Question' form contains the following elements:

- Image:** A field with a 'Choose File' button and 'No file chosen' text, labeled with a blue circle '1'.
- Question:** A text input field, labeled with a blue circle '2'.
- Answer(s):** A list of text input fields. The first field is labeled with a blue circle '3'. Each field has a small 'x' icon to its right for deletion. Below the first field is a link that says 'ADD MORE ANSWERS' with a red arrow pointing to it.
- Buttons:** 'Add Question' (green) and 'Cancel' (light green) at the bottom.

Editing/Deleting Anti-SPAM Questions

If you need to **edit/delete** your anti-spam question(s), just click on the setting symbol in the right side of the screen, then choose **edit/delete**. Please do not forget to press **Update** when you have finish edit your question(s).

The 'Anti-Spam Security Questions' page features a sidebar with navigation links: Dashboard, Apps, Globalization, Appearance, Members, Settings (highlighted), Emails, Mail Server, SEO, SSL, Server Settings, Site Settings, and Spam Assistance.

The main content area displays a table of questions:

Image	Question	Answer(s)	Case Sensitive	active	Settings
	What is this?	dog/ Dog	☒	☒	ON ON ⚙️ Edit Delete

A red box highlights the 'Settings' column for the first question, showing a dropdown menu with 'Edit' and 'Delete' options.
