# Allow/Disallow posting on Main feed when users add a new photo/album

This tutorial will show you how to allow or disallow posting on Main feed when users add a new photo/album.

Assumption that you are already logged in as the **Admin** user and are logged into the **adminCP**. From **adminCP>Apps>Photos>Settings.**

Then, scrolling down to find the setting **Allow posting on Main Feed**, if you want to allow user's photo could appear on main feed, please **toggle** it on or if not, you can turn it off.

Click S**AVE Changes** and **Clear Cache** after making changes.

Note: Please note that this setting is applied for all the users of groups.
