

Subscription

Your social network is just like your business, and a successful business does bring you money. Monetizing a social network doesn't have to be hard. Membership subscription is a great way to earn money from your great user-base, your great content, and your specific features. When you create a membership subscription in phpFox, you can create custom a user group that can do special things that other user groups cannot do and you can charge for these features. With the membership subscription enabled, you can start making money with your social network right away.

Notice:

- This app is applied to Pro package only. Refer to <https://www.phpfox.com/pricing> to see all packages.
