Version 4.6.6

Information

- **Release Date:** March 16, 2022
- **Best Compatibility:** phpFox >= 4.6.1

Improvements

- UI/UX improvements
- Hide useless user group settings for Guest
- Integrate notification and email when creating new item in Page
- Hide actions (edit, move, copy...) of threads in closed forums
- AdminCP >> Move setting "Can browse and view the forum module?" to the top

Fixed Bugs

- Unable to search threads that have special characters
- After user deleted their thread from My Threads page then the site is redirected to Forum home page
- Group: Forum: User (creator) who has permission to view threads in Closed/Secret Group but cannot search that thread on global search
- Subscribed Threads: Search feature does not work
- New Posts: User is not a member of closed and secret groups but they can still see posts of thread in those.
- My Threads: Filter by "Ascending" does not work
- My Threads: Showing the latest thread is not correct
- Message is not correct when filtering by "Show Posts"
- No threads are shown when clicking on next page of paging
- Page: User can create item (forum) inside Page although this module has not been integrated with page
- Unable to edit pending threads which have been created inside Page/Group

- Pending threads are not shown on My Threads page if those items are created by "log in as Page" user
- Users can approve the deleted thread/post
- Users can post thread with type "announcements" from closed forum
- Page/Group: Forum: The feature of Move & Copy threads are not working inside Page/Group
- The setting of Enable "Thanks" on posts are not working
- User can edit posts with empty characters
- Guest can access My Threads and Subscribed Threads pages
- Text of confirm popup is not correct when deleting pending post
- Duplicate thread when a user tries to sort thread by tag
- Pending Threads: Search function does not work
- User can edit the content of the post without inputting captcha
- User can create poll inside thread although setting "Can browse and view polls" is disabled?
- User can create a thread although setting "Can browse and view the forum module?" is disabled?
- There is no email/notification sent to user after admin site assigns to Moderator role
- Thread: "Copy thread" feature is not working correctly
- Action Sheet: Count thread feature on action sheet does not work
