

How to test iOS mobile app using TestFlight

When you are done building your iOS app, and you would like to invite people to test your app for feedback and bugs/issues... Then the easiest way is to invite them to join TestFlight and test your app through TestFlight. You can invite up to 10,000 testers using just their email address or by sharing a public link.

Download TestFlight to your Apple Devices

On your Apple devices, simply go to Appstore and search for TestFlight to download and install the app to your devices.

Invite people to test your iOS app with TestFlight

1. Log in to [iTunes Connect](#)

2. Access your iOS app by going to **My Apps** >> Select on the app you would like people to test

Then, select **TestFlight** >> **Build**.

The screenshot shows the 'iOS Builds' section of the TestFlight interface. The left sidebar has a menu with 'BUILDS' (containing 'iOS'), 'TESTERS & GROUPS', 'All Testers (1)', 'App Store Connect Users', and 'Add External Testers'. Under 'APP INFORMATION', there are 'Test Information' and 'About TestFlight Data'. The main content area is titled 'iOS Builds' and states 'The following builds are available to test. [Learn more about build status and metrics.](#)'. Below this, a dropdown for 'Version 1.0' is expanded, showing a table of build details.

Build	App Store Connect Users	External Testers	Invitations	Installations	Last 7 Days
	● Testing Expires in 89 days	● Ready to Submit Expires in 89 days	1	1	

3. Click "+" to add new testers

The screenshot shows the 'App Store Connect Users' section of the TestFlight interface. The left sidebar is identical to the previous screenshot, but 'App Store Connect Users' is now selected. The main content area is titled 'App Store Connect Users' and explains that these users can use the TestFlight app to test all available builds. Below this, there are tabs for 'Testers' and 'Builds'. The 'Testers' tab is active, showing a 'Tester (1)' with a plus icon and a search bar. A table lists the tester's details.

Email	Name	Status
		Invited Resend Invite December 19, 2018

Install your iOS apps using TestFlight

Once the developer finishes building the app, they will have the option to invite you by sending a link to your email. You can just check your email on your device to accept the invitation.

1. Open your invitation email.
2. Tap *Start Testing in TestFlight*.
3. Tap *Accept, Install, or Update*.
4. The TestFlight app will open and start downloading the new app for you to test.

- In case you are checking email on your computer, you will be issued a redeemable code. Open TestFlight app on the device >> Redeem >> Enter the code to download the app.

- Whenever there is a new build for the testing app is released, you will be notified through email or on TestFlight app, you can access and download to upgrade your testing app to the latest build.
