5	Add the "Send Now" option for the scheduled post
6	Edit user's profile: + Add asterisk on required custom fields + If missing required fields, all messages will be shown at the same time
7	In Manage Themes > Homepage - Support multiple languages for "Main content"
8	Update "Signup with Google" using Google Identity Service

Bugs Fixed

ID	Description
1	Could not change the privacy of the photo/video feed that having check-in
2	When editing multi-line status to mention a user at the end of a certain line, a redundant blank line is injected automatically right after that line
3	Friend app's issues: + Even though Admin has turned the "Friends" app off, users can still mention friends + In the "Invite your Friends" page, no data is loaded in "Add to Friend" section + When users post status and tag friends, they couldn't like or comment on their Profile feed
4	Currency issues: + If admins change the order of currencies, the change isn't applied in the front-end until clearing All Caches + Admin can deactivate the default currency + If deactivating the currency that the user has set as their Preferred Currency, the price of items is shown in the wrong format
5	Ban Filter's issues: + Admin can add ban filter with empty data + Ban filters can be duplicated + When searching for IP Address, an error code sometimes displays
6	PHP 8 issues: + Show 500 error when admin views log of importing history + In version 4.8.9, when doing a fresh install on PHP 8, the installation work could not be completed
7	Browse Users page keeps loading if the site has too many users
8	Feed/Comment - Users can still mention pending pages/groups
9	On the Sign-up form, the custom gender fields don't display

10	<p>Layout issues on Bootstrap:</p> <ul style="list-style-type: none">+ On Feed, the layout of check-in is not displayed properly+ On Sign-up/Sign-in form, the password field is too short+ On Sign-up, the text of the warning message is cut off
12	<p>Photo's issues:</p> <ul style="list-style-type: none">+ When creating a new album within a page, it does not load the created album on the 'Photo Album' drop-down and All Albums page+ In the Recent photos, the mature photos are not blurred on the user's profile page+ If posting multiple photos with custom privacy, it only shows one photo on the feed for friends in the list
13	<p>Comment's issues:</p> <ul style="list-style-type: none">+ In Bootstrap template, when commenting with the link, layout of the link preview is broken+ Emojis are shown incorrectly after editing the comment
