

# Configure site logo, favicon and site assets

This tutorial will show you how to change your site's appearance.

## Configure the site logo and favicon

This assumes you are already logged in as the **Admin user** and are now in the **AdminCP**.

- From **Appearance > Assets** Input the keyword **Logo** or **favicon** into the field **Search**

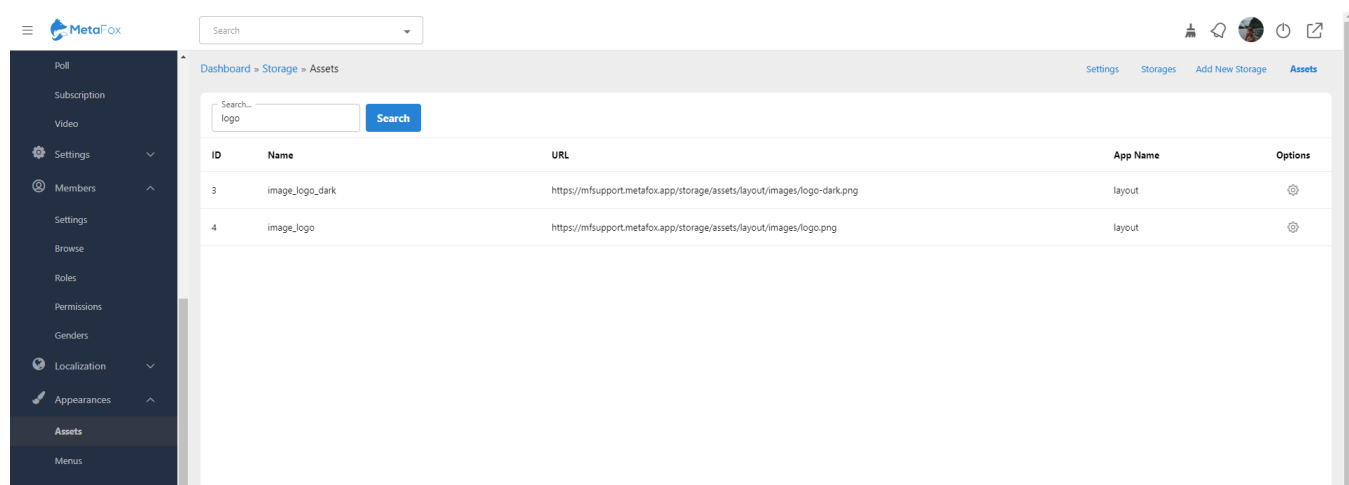

Dashboard > Storage > Assets

Search...

Search

ID	Name	URL	App Name	Options
1	image_error_403	https://mfsupport.metafox.app/storage/assets/layout/images/403.png	layout	
2	image_error_404	https://mfsupport.metafox.app/storage/assets/layout/images/404.png	layout	
3	image_logo_dark	https://mfsupport.metafox.app/storage/assets/layout/images/logo-dark.png	layout	
4	image_logo	https://mfsupport.metafox.app/storage/assets/layout/images/logo.png	layout	
5	image_no_results	https://mfsupport.metafox.app/storage/assets/layout/images/no-results.png	layout	
6	image_sign_in_multi_access	https://mfsupport.metafox.app/storage/assets/layout/images/sign-in-multi-access.png	layout	
7	image_welcome	https://mfsupport.metafox.app/storage/assets/layout/images/welcome-image.png	layout	
8	cover_no_image	https://mfsupport.metafox.app/storage/assets/user/images/cover_no_image.png	user	
9	get_started	https://mfsupport.metafox.app/storage/assets/activitypoint/images/get_started.png	activitypoint	
10	package_no_image	https://mfsupport.metafox.app/storage/assets/activitypoint/images/package_no_image.png	activitypoint	
11	no_image	https://mfsupport.metafox.app/storage/assets/blog/images/no_image.png	blog	
12	incoming_call.mp3	https://mfsupport.metafox.app/storage/assets/chatplus/audio/incoming-call.mp3	chatplus	
13	notification.mp3	https://mfsupport.metafox.app/storage/assets/chatplus/audio/sound_notification.mp3	chatplus	
14	cover_no_image	https://mfsupport.metafox.app/storage/assets/event/images/cover_no_image.png	event	

- You will see two items to edit your logo: **light and dark modes**.

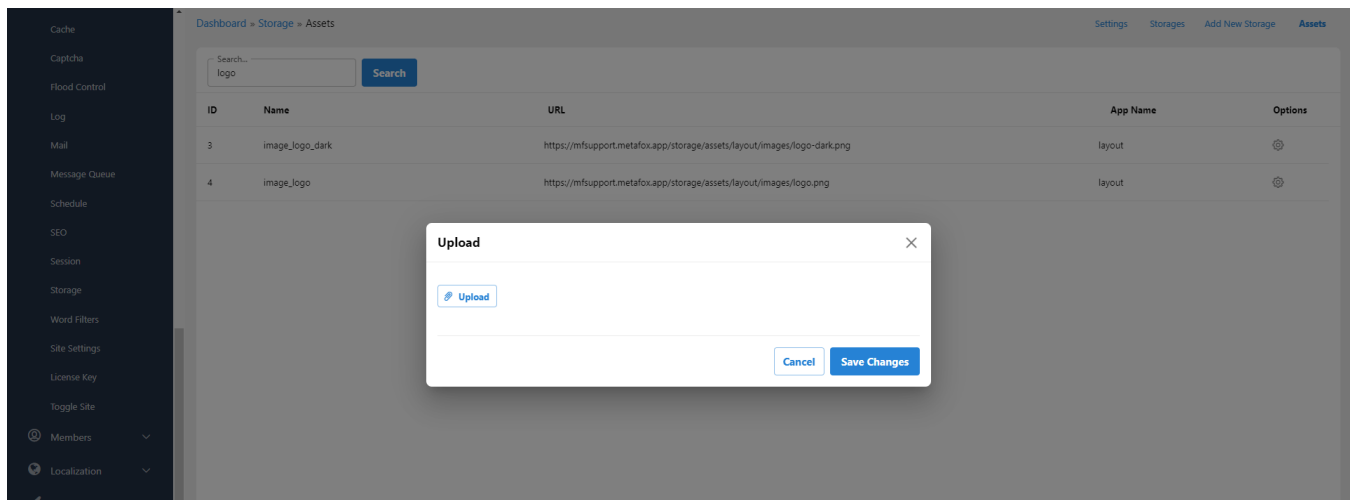

Dashboard > Storage > Assets

Search...

Search

ID	Name	URL	App Name	Options
3	image_logo_dark	https://mfsupport.metafox.app/storage/assets/layout/images/logo-dark.png	layout	
4	image_logo	https://mfsupport.metafox.app/storage/assets/layout/images/logo.png	layout	

- From the **Options** section Click on the **Gear** and choose **Edit** Upload the new logo and **Save Changes**.

Tips: Don't forget to clear the cache to display your new logo properly.

## Build site to apply changes

Under **AdminCP > Appearances**, you go to **Themes > Rebuild Site**. Then, click on **Rebuild Site** button. It may take a few minutes for the build process to complete and update the frontend (web).

**Now, you can go ahead to change many other assets.**
