Creating Static Pages

```
    Archives
```

You are using phpFox version earlier than 4.6.0? Please refer instruction for this article here.

This tutorial will show you how to make a static page for your site. Those are the pages such as the about, terms and privacy pages for example.

Create a Page

This assumes you are already logged in as the Admin user and are logged into the AdminCP.

• Click Appearance >> Pages

Click Create a Page in the top right of the screen
Manage Pages

• Enter a Page Title, Meta Keywords & Description (Optional), and set if this is Active and whether to create a menu for this page. You can also select which user groups can see this page.

Page Title	
Meta Keywords:	
Meta Description:	
Active: • Yes • No	
Add To Menu: • Yes • No	
User Group Access Allow Access:	
 Registered User Guest Staff 	
 Banned jedi 	

Save	
Once you've done the above step, You can use the text editor or insert a source co \times \cap \oplus \oplus \oplus \wedge $ $ \otimes $ $ \otimes $ $ \blacksquare \blacksquare \blacksquare \blacksquare \blacksquare \square \blacksquare \blacksquare \square \square \blacksquare \square \square \square	Page Title *
